About Me

Hi! I'm a web developer with a keen interest in mobile development. I recently graduated from Dev Bootcamp where I learned to use a host of web development technologies like Ruby on Rails and JavaScript. My ideal company has an exciting and meaningful purpose; needs an efficient and thorough junior web developer; and has the room for him to transition to mobile development in 6 months' time.

Skills

Interpersonal

Pair programming; Engineering Empathy; A.S.K. Feedback; Agile Development

Technical

Ruby; Rails; Sinatra; JavaScript; jQuery; AngularJS; Git; PostgreSQL; Heroku; HTML; CSS; RSpec, REST; JSON; AJAX; OAuth; MVC; OOJS

Projects

WeThePAC - Android App ([Google Play Store](#))

- > I wrote this app in Java in four days as a mobile interface for [wethepac.net](#). It consumes our API, creates POJOs modeling each representative or user, and displays them.

WeThePAC.net

- > Express yourself in America's political clime by pledging and Tweeting at your elected representative when they perform an action you support.
- > Implemented core functionality in the Rails 4 backend
- > Engineered routes serving JSON to the Javascript (jQuery, Handlebars, AJAX) frontend
- > Built functionality, features, and polish with Javascript on the frontend

Rockshoe.me

- > Discover rock climbing shoes that other rock climbers have found to fit their feet.
- > Designed with mockups, built on Sinatra, presented with JavaScript
- > Serves pages with Sinatra, backed by a Heroku PostgreSQL database; loads elements with AJAX and jQuery; and allows login (mirrored on its own database) via Facebook OAuth.

Experience

[Eyecatchers.me](#) - Headshot Photographer

2012-2014

- > Collaborated with clients to craft stories from their personalities and experiences
- > Comforted clients so that they would feel comfortable fully expressing themselves
