## Projects

---

### WE<sub>THE</sub>PAC - ANDROID APP

- Written in Java in four days as an exercise for learning Android native development
- Uses Square's Retrofit library to make RESTful API calls (on our Rails 4 API)

### WE<sub>THE</sub>PAC.NET

- Express yourself in the money-laden landscape that is American politics by pledging and tweeting at your incumbent representative when they perform an action you support.
- Implements design driven development
- Rails 4 API that serves JSON to a RoR and JS (jQuery, Handlebars, AJAX) front-end and Android app; realtime updates furnished by Firebase, graphs rendered with D3js

### ROCKSHOE.ME

- Rock climbing shoe review website with (unimplemented) fitment predictions
- Implements design driven development
- Sinatra, Heroku PostgreSQL, AJAX, HTML, CSS, jQuery, and Facebook OAuth

## Professional Experience

---

### EYECATCHERS.ME

#### *Freelance Photographer*

2012-2014

- Capture actors' and business persons' likenesses for their self-representation and self-promotion.
- Captured peoples' likenesses in family portraiture, group portraiture, and event photography.

## Education

---
